Join us for dinner and an evening at the Orpheum Theatre for Beautiful – The Carole King Musical that tells the inspiring true story of her remarkable rise to stardom. The story flashes back to the days when she was still 17-year-old Carole Klein, living with her divorced mother who warns her about the difficulty of both the music business and marriage. With genius and hard work, however, Carole begins her arduous and successful life’s journey, first as a part of a hit songwriting team (with her husband at the time), then becoming one of the most successful solo acts in popular music history. Along the way, she made more than beautiful music. She wrote the soundtrack to a generation. The production features a stunning array of beloved songs, “I Feel the Earth Move,” “One Fine Day,” “(You Make Me Feel Like) A Natural Woman” and many more.

**Tuesday, February 28**
Depart Belden 3:30 p.m.
$129 (dinner included)

**CORINTH: CROSSROADS OF THE SOUTH**

Mississippi’s Corinth, named after the famous city of Greece, is a study in contrast where the thrum of modern manufacturing mixes with the echoes of steam locomotives and the thunder of artillery from long-ago battles. Its strategic location at the junction of the Memphis & Charleston and Mobile & Ohio railroads was both a blessing and a curse. Business and industry flocked to
the crossroads as a shipping and receiving center for goods, but the Union armies of Grant and Sherman gathered there to capture and destroy it. Corinth’s location continues to play an important role in its development. Modern industries find it attractive due to the easy highway access to Memphis, Nashville, Birmingham and the Tennessee-Tombigbee Waterway. Its nickname as “Crossroads of the South” still serves the city well.

Our visit will include stops at the Civil War Interpretive Center, Corinth’s Art Gallery, a guided tour of historic downtown, a visit to the Veranda Curlee House (Corinth’s only antebellum home open for tours), lunch and shopping.

Thursday, March 23
Depart Belden 8:30 a.m.
$69 (lunch included)

CHARLESTON: THE GRAND LADY OF THE SOUTH

With colorful homes, historic architecture, lush gardens, great cuisine and a salty Atlantic sea breeze, the city of Charleston has a culture that is all its own. Like a Low Country broth, Charleston is a mixture of the flavors and mood of the American South with the zest and vibrancy that comes from being a major Atlantic seaport. Despite brushes with the occasional hurricane, it is one of the most uniquely preserved cities in the United States with an eclectic mix of architectural styles. Our visit to Charleston will include guided tours of Charleston’s Historic District, the Charleston Tea Plantation, The Battery, Magnolia Plantation, Patriot’s Point Naval and Maritime Museum (lunch on board U.S.S. Yorktown), shopping in the City Market, evening dinners at The Noisy Oyster and Gilligan’s Seafood Restaurant and a dinner-cruise aboard The Spirit of Carolina. In addition, we’ll attend a musical production, The Sounds of Charleston: From Gospel to Gershwin, at the historic Circular Congregational Church. Join us for a tour of the architecture, gardens, music, history and fine dining of The Grand Lady of the South.

Monday-Friday
May 8-12
Depart Belden 7:30 a.m.
$1,129-double - $1,429-single
Tour includes 4 breakfasts, 1 lunch, 3 dinners, 1 show
ANCESTRY.COM
Research your genealogy from the comfort of home 24 hours a day with more than 20,000 databases and transcribed books, and more added every day, available at Ancestry.com. Learn to use and make sense of the vast digitized network of census records, birth, death and marriage certificates and many other directories. Those interested should take “Beginning Genealogy” as a prerequisite.

BEGINNING GENEALOGY – FINDING YOUR FOLKS
There is a Chinese proverb that says, “To forget one’s ancestors is to be a creek without a source, a branch without a root.” In our Beginning Genealogy class, you will explore the basics of family history investigation and how to begin the process of researching your genealogy. Come to our workshop and learn where to find official records, look for clues to your family’s past, how to organize your documentation and how to avoid common mistakes.

INTRODUCTION TO WINDOWS 10
This class is for those who have little or no experience with computers. You will learn about the components of the computer, work with the keyboard and learn to control the mouse. The instructor will help you understand storage mediums, the difference between kilobytes and gigabytes, the transition from floppy disks to flash drives, the letter A: to E:; work with you to personalize Windows 10 and help you place unwanted items in the recycle bin. You will also spend time creating and printing a letter. This class is a good confidence builder.

GET THE MOST OUT OF YOUR iPHONE
This four-session class will cover the basics of using your iPhone. The class will start with the main functions in Settings. We will explore popular default apps such as the Camera, Photos, Video, Notes, Calendar, Clock and Reminders. Participants will spend a class session on how to send messages, photos and video through text. The class will conclude with how to download apps using Safari. This will be a small hands-on class that will truly help you get the most out of your iPhone. Class size is limited; so register early.

IPHONE EXTENDED: SAFARI, iTUNES AND iPHOTOS (SOME iPHONE EXPERIENCE REQUIRED)
This class includes something for all Apple users. Learn to explore the Internet and World Wide Web (WWW) using Safari, search for your favorite music using iTunes and manage all of the precious...
photos of your children and grandchildren. Topics will include Internet searches; bookmarking; photo apps for taking, editing and deleting pictures on your device and downloading and using the iTunes app. This class will ensure that you become a serious and more efficient user of your handheld device.

**Mar. 21**  
**T**  
**8:30-11:30 a.m.**  
**$19**

**INTRO TO IPAD**

This interactive four-session class covers the basic functions and applications of your iPad. Designed for those with a new iPad or those seriously considering purchasing one, topics in this course include settings, navigation functions, popular default apps, Safari, email and more. It is an amazing device once you learn how to use it properly and efficiently.
